

Irfan Khan

Senior Full Stack Developer

📞 Phone @ khanzz_irfan@hotmail.com 🌐 github.com/khanzzirfan 📍 Sydney, Australia

SUMMARY

Full Stack Developer with over 10 years of experience in software development, consultant, Reactjs, NodeJS, C#, AWS, Azure. Led development of \$1M research project which was deemed a "gold standard" by the client. Increased client's revenue 2-fold after fine-tuning various techniques for Open Loyalty program in ReactJs. Well-acquainted with usability testing, a11y accessibility, integrations, continuous development & deployments and automated testing.

EXPERIENCE

Team Lead / Senior Full stack Developer

IAG Insurance 06/2021 - Ongoing Sydney, Australia

IAG is the parent company of a general insurance group with controlled operations in Australia and New Zealand with a rapid pace development and innovative solutions for demanding projects. I work as a full-stack developer here, responsible for building, deploying and maintaining internal web applications.

- Architected and developed large scale JavaScript application with Reactjs.
- Developed webpack MFEs in Reactjs applications
- Implemented Reactjs controllers to maintain view data.
- Design and development of microservices with combination of Nestjs and Kafka message brokers.
- Implemented bff (backend for frontend) api layer to interact with microservices easily
- Involved in design and development of Rest APIs and services to interact with storage layer and third-party services.
- Implemented open loyalty product and integrated with insurance customers to give away points
- Replaced hand built components with a widely used component library
- Modernized old React patterns
- Added REST client code generation from OpenAPI specs

Full Stack Developer / UI Coach

Westpac Bank 11/2018 - 06/2021 Sydney
<https://one.dev1.ui.westpac.com.au/react/gel/docs/latest>

Westpac is Australia's oldest bank and company, one of four major banking organisations in Australia and one of the largest banks in New Zealand. A fast pace leading technology providers for banking solutions

- UI Coach and responsible for training project teams front-end developers.
- Developed a Westpac Gel design system library for banking group.
- Developed user interface by using the React JS, Redux for SPA development.
- Involved in responsive design and developed a single ISOMORPHIC responsive website that could be served to desktop, Tablets and mobile users using React JS.
- Component for UX-Library consisted of Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown and many more.
- Developed centralized MFA system for all Westpac applications.
- Achieved role-based access to the application and used SSO for the integrated product and plugins.
- Developed enterprise testing framework using codeceptjs and selenium webdriver io. Trained application developers on codeceptjs framework and CI/CD integration.
